

BSc (Hons) Work Based Distance Learning Degree

Course Aim

The BSc (Hons) Logistics Management is a Work Based Distance Learning (WBDL) degree, which aims to bridge a gap between learning at work and learning at university. The programme takes into account the high level of skills and learning, which are demonstrated daily in the workplace and provides a degree framework to support and accredit this learning.

Entry Eligibility

The BSc (Hons) Logistics Management programme is open to all suitably qualified and experienced Logistic Specialist (Supply) SNCOs who also have the required academic background to allow entry to the final-year of the three-year degree programme. Typically they will have:

- A level 5 qualification or its equivalent.
- Be in a position to apply learning at a management level.
- Have over 3 years of experience as a manager within a logistic environment.

The programme is accredited with [The Chartered Institute of Logistic and Transport](#) (CILT) and the [Chartered Management Institute](#) (CMI).

Duration

The course typically takes 18 months to complete, depending on your own work commitments and circumstances. A flexible approach is applied to allow students to take breaks in study based on work and life commitments.

Cost and Payment

Course provided at reduced cost for Logistic Specialist (Supply) personnel:

Course Cost	£5,660
Payment	£2,830 payable once prior to year one and once prior to year two

Available Funding

[Enhanced Learning Credits](#) (ELCs) are available to subsidise this course. Lincoln University is an approved Learning Provider under the Armed Forces ELC scheme; ELCAS registration number is 1283. Payment terms can be discussed at on application.

Method of Delivery

Work Based Distance Learning (WBDL). This is distance study with an emphasis on application to and learning from the work environment.

Modules

Core Modules:

- Critical Enquiry Skills.
- Integrating Leadership and Management Experience.
- Strategic Supply Chain Management.
- Independent Research Project.

Elective 1 (Choose one):

- Management of Operations.
- Managing Projects.

Elective 2 (Choose One):

- Managing the Food Supply Chain.
