WILSON JAMES
WHO ARE WE?

WILSON JAMES PROVIDES SAFE, SECURE, CUSTOMER-LED SOLUTIONS TO MORE THAN 300 CLIENTS ACROSS THE UK AND EUROPE.

We have been raising standards for over 25 years across three core service lines; security, construction logistics and aviation services.

In security, our SIA licenced security officers provide protection for a business, its assets, people and reputation. Security experts advise on the latest security technology including CCTV, alarm systems and data, as consultants help mitigate risk whilst adding genuine value to each client.

In construction logistics, we provide a range of services to support large scale construction projects. A highly flexible approach enables us to combine the expertise of different logistics management fields such as transport, storage, material movement and people flow.

In aviation, we deliver a diverse range of services including aviation security, passenger and premium services, airport operations and construction logistics, consultancy and training.

Our vision and values underpin everything we do and guide our people to perform their best.
