

Marine Engineer – The Royal Logistic Corps

Class 1 Course

Course Aim.

To train and develop Class 2 Marine Engineers technical and supervisory skills to meet the requirements of a Class 1 soldier as defined by relevant policy.

Course Objectives.

Training Objectives associated with the Class 1 course are:

- Operate & repair in-service vessels and associated equipment.
- To be able to plan for Maritime deployments
- Conduct Inventory Management of on-board stores using current in-service materiel accounting systems.
- Conduct the duties of a Class 1 Marine Engineer on all in service Army Craft and vessels (AWB MK4, CSB & MEXEFLOTE) whilst at sea and in base port.
- Manage Assurance processes in line with current policy.

Duration.

The course is 43 weeks residential training delivered by DSMarE HMS Sultan.

Enrolment Criteria.

Personnel must meet the following criteria to apply for the course¹:

- A minimum of 12 months employment experience as an RLC Marine Engineer Class 2.
- Hold the minimum rank of substantive LCpl.
- Recommended by their parent unit & Marine Engineer Head of Trade to attend RLC Marine Engineer Class 1 course.

Accreditation.

The course is accredited and mapped to professional qualifications at Level 3.

Dates & Enrolment.

Course dates for each Training Year can be found through the Chain of Command. Historically only one course has run per TY due to the course duration and available personnel. Queries and applications are to be submitted via the Unit career management single point of contact to the Deputy Training Officer (DTO) Army at DSMarE HMS Sultan.

¹ Request to deviate can be sought in accordance with RLC Training Instructions.
